

Maastricht University

RE:SET

Dear Student,

Have you been affected by the housing crisis in Maastricht directly or indirectly? Have you felt unheard or neglected? Do you feel you pay too much or receive too little? Would you like to help to make it better for future students? Then give us please a few minutes of your time.

Following a digital townhall breaking the housing crisis, we initiated an independent research effort to strengthen collective advocacy efforts to address the structural housing shortage.

This survey is specifically designed to complement national surveys which do not sufficiently address the specific situation of Maastricht or the international background of its student population.

To this end, we kindly request your participation in the following survey:

https://maastrichtuniversity.eu.qualtrics.com/jfe/form/SV_b9hwjM18RMv9ply

You can also scan the QR link below. Response time is approximately 7 minutes.

The findings of this survey will be discussed with the Maastricht City Council (the legislative branch of local government) and presented to its civil service.

This research project is a collaboration between UM researchers and the newly founded political party RE:SET.

To add an element of fun, we also offer you the opportunity to win a special prize!

- Apple AirPods Pro 🍎🎧
- Two tickets to a Linke Soto club night at the Muziekgieterij 🧑🧑
- One hour of squash at the Maastricht Squash Center for two 🏸👤
- Four burritos from With Love Burrito 🌯

Thank you in advance for your voluntary participation and please forward this survey to anyone who was (or still is) confronted with finding safe and affordable housing in Maastricht.

Sincerely Yours,

Prof. Dr. S. Ramani
